THE STATE WINTER SILL

On April the 26, 1886, Mr. Simes ptroduced the following bill to amend ections two thousand three hundred and twenty and two thousand three hundred and twenty two, of chapter six, title thirty-two of the Revised Statutes of the United States:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress as-

That section two thousand three bundred and twenty of the Revised Statutes of the United States be, and the same is, hereby amended to read as follows:

Secrion 2,320. Mining claims upon veins or lodes of quartz, or any kind of rock in place, bearing gold, silver, cinnabar, lead, tin, copper, or any kind of valuable mineral deposits, sereafter located, may equal, but shall not exceed in area twenty acres; out no location of a mining claim shall be made until the discovery of ne vein or lode or other character of a valuable mineral deposit within the limits of the claim located. Lode mining claims may be located in such form on the surface as the discover ers or locators thereof may desire, subject to the following limitations:

That such claims must be substanially in the form of parallelograms where the boundaries of adjoining prior located claims or prior owned ands permit, and the length of such mining claims shall not be more than one-third greater than the width

Sec. 2. That section 2,322 of the Revised Statutes of the United States X. Oristenden X, Desset, be, and the same hereby is, amended

Szc. 2,322. The locators of all lode mining claims or locations which shall bereafter be made on public mineral lands of the United States, their beirs and assigns, where uo legal adverse claim or right exists at the date of the discovery and location, so long as they comply with the laws of the United States and with the State or Territorial laws and local regulations not in conflict with the laws of the United States governing the preemption and possessory titles, shall have the exclusive right to the possession and enjoyment of all veins lodes, ledges, and all mineral deposits of every kind and character found or existing within the boundary lines of said lode mining claim extending contained shall be construed as giv ing any locators or owners of mining claims a right to follow any vein or mineral deposit, ontside the vertical boundary lines of such claims.

SEC 3. That all acts and parts o the same are, hereby repealed.

Lincoin's Great Speech.

The following is Lincoln's celebrat the grandest and most perfect speeches ever made by man:

"Fourscore and seven years ago liberty and dedicated to the proposition that all men are created equal Now we are engaged in a great civil war, testing whether that nation or any nation so conceived and so dedicated, can long endure. We are met on a great battlefield of that war. We have come to dedicate a portion of that field as a final resting place for those who here gave their lives that the nation might live. It is altogether fitting and proper that we should do this. But in a larger sense

have awakened considerable interest increased devotion to that cause for herself, on bride and groom, afteen and canced lively discussions in the which they gave the last full moustere verses in all." mining camps. The full text of the of devotion; that we here highly re-Simes bill is given below. While the solve that these dead shall not have proposed changes would audoubtedly died in vain; that this nation, under shock opportunities for litigation God, shall have a new high of free-

Mopping Your Paper.

An exchange says: After you get on your ear, and make up your mind under a fair and novel plan downward vertically. Nothing herein to stop your paper to humiliate the editor, just poke your finger into water and then pull it out and look for the hole. Then you will see how badly you are missed. The man who thinks a paper cannot survive without his support ought to go off and acts inconsistent herewith be, and stay awhile. When he comes back be will find half his friends didn't package is many times sufficient to know be was gone; the other half effect a permanent cure. Queer Financi | Methods.

(The Judge.) In his capacity of debtor, Jones pursues some queer methods.

"As for me," said be, "when a cred itor takes it into his head to write to me, I cross him off my list. That settles it; no money for him."

"And when he doesn't write!" "In that case I wait until he does." The Boston Journal says:

We cannot dedicate, we cannot consecuted it of a long list of wedding presents is struggled here, have consecrated it far above our power to add or detract.

The world will little note, nor long of the U. S. Patent Office, and references to actual clients in your own fitste or County, write to C. A SNOW & CO.,

Ognocite Patent Office, Washington, D. C.

We cannot dedicate, we cannot consecuted it of a long list of wedding presents is questionable, but the list recently published in a country paper is, in one sense, interesting, including, as the world will little note, nor long it did: 'From father and mother of either sex, success in the bride, one Jersey calf; from bride workers: absolutely sure. A novel locomotive is to be built for trial on one of the French railroads. Seeing that big driving-wheels were good for speed, the inventor proposes to build a locometive with six coupled wheels, eight and onefourth feet in diameter. The tender and coaches are to have wheels of the same dimensions, and the calculation is that with such a train a speed of from seventy-two to seventy-eight miles an hour can be obtained.
